

2021-22

EcoSchools Canada National Impact Report

Every School an EcoSchool!

This year, **1,468 schools** from across Canada registered in the EcoSchools program. We welcomed **221 new schools** to the EcoSchools community from **9 provinces and territories** including new school districts in Quebec, Alberta, British Columbia, Saskatchewan, Manitoba, Nova Scotia and the Northwest Territories.

14,000+

actions completed

— that's 5,000 more than last year!

730,000+

students reached

560,000+

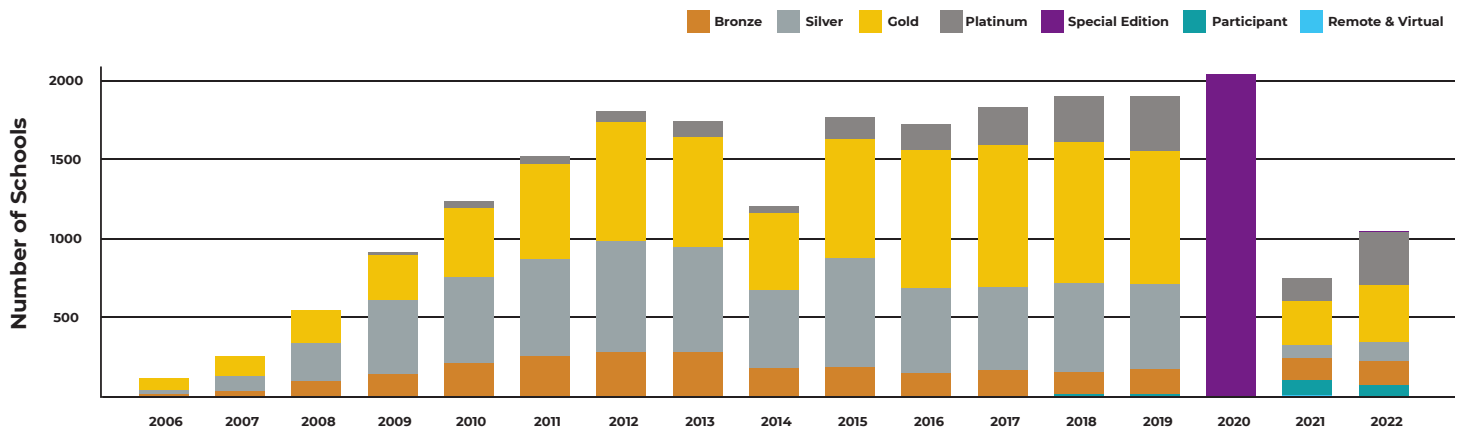

hours of outdoor learning

this school year!

137

registered School Boards and Districts

Certified Schools 2006-2022

Data collected from all schools participating in the EcoSchools program 2021-22, as of **June 15, 2022**. To learn more about how EcoSchools gathers and interprets school data, see [here](#).

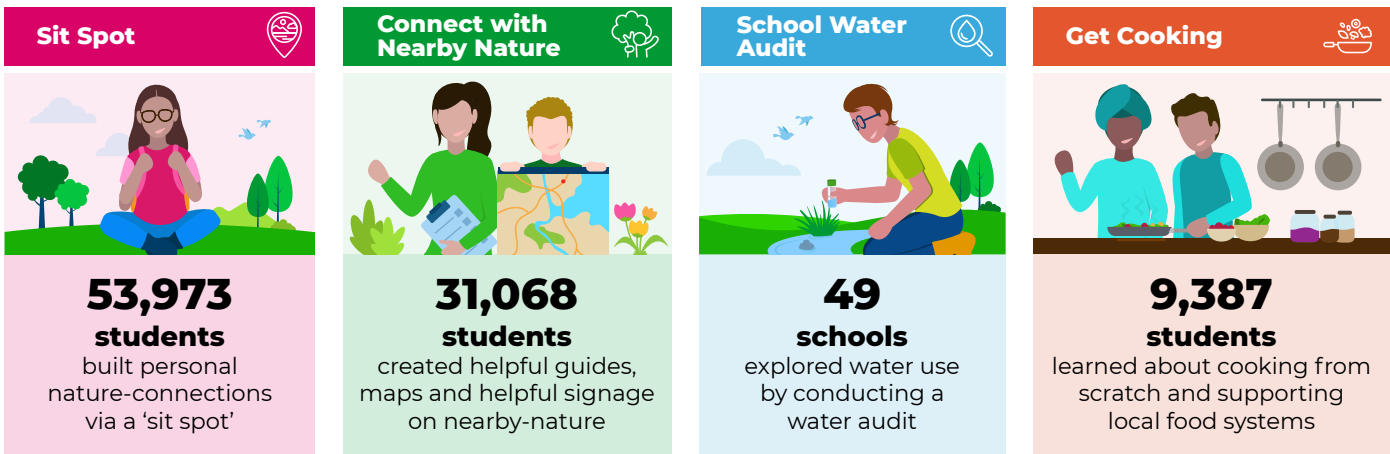

Top Actions 2021-22

The EcoSchools action library includes a wide range of 50+ actions to choose from, across 12 themes; from waste and energy to health and well-being, biodiversity and nature. In this chart you'll find the top 10 most popular actions taking place in EcoSchools across the country.

NEW! For 2021-22

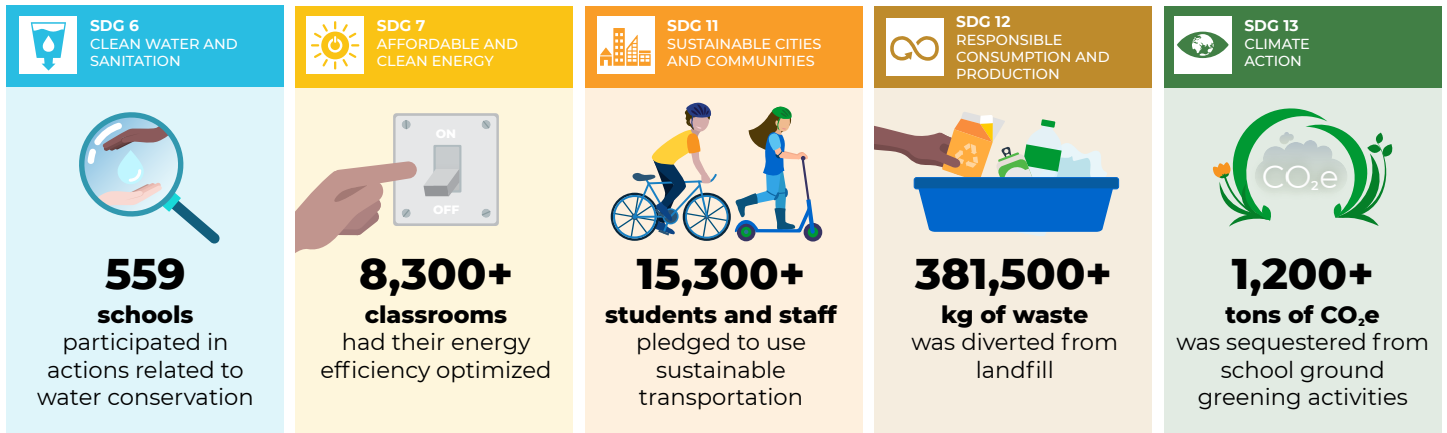

We added new actions to the ECA this year, including; Sit Spot, Connect with Nearby Nature, School Water Audit, Get Cooking. Here are some of the highlights from the new actions for 2021-22:

“As part of the EcoSchools program at our school, many teachers take their classes outside for various learning experiences. Reading doesn't only happen in the library! We often take students outside to read and enjoy the gardens they've worked so hard to plant, weed, and water.”

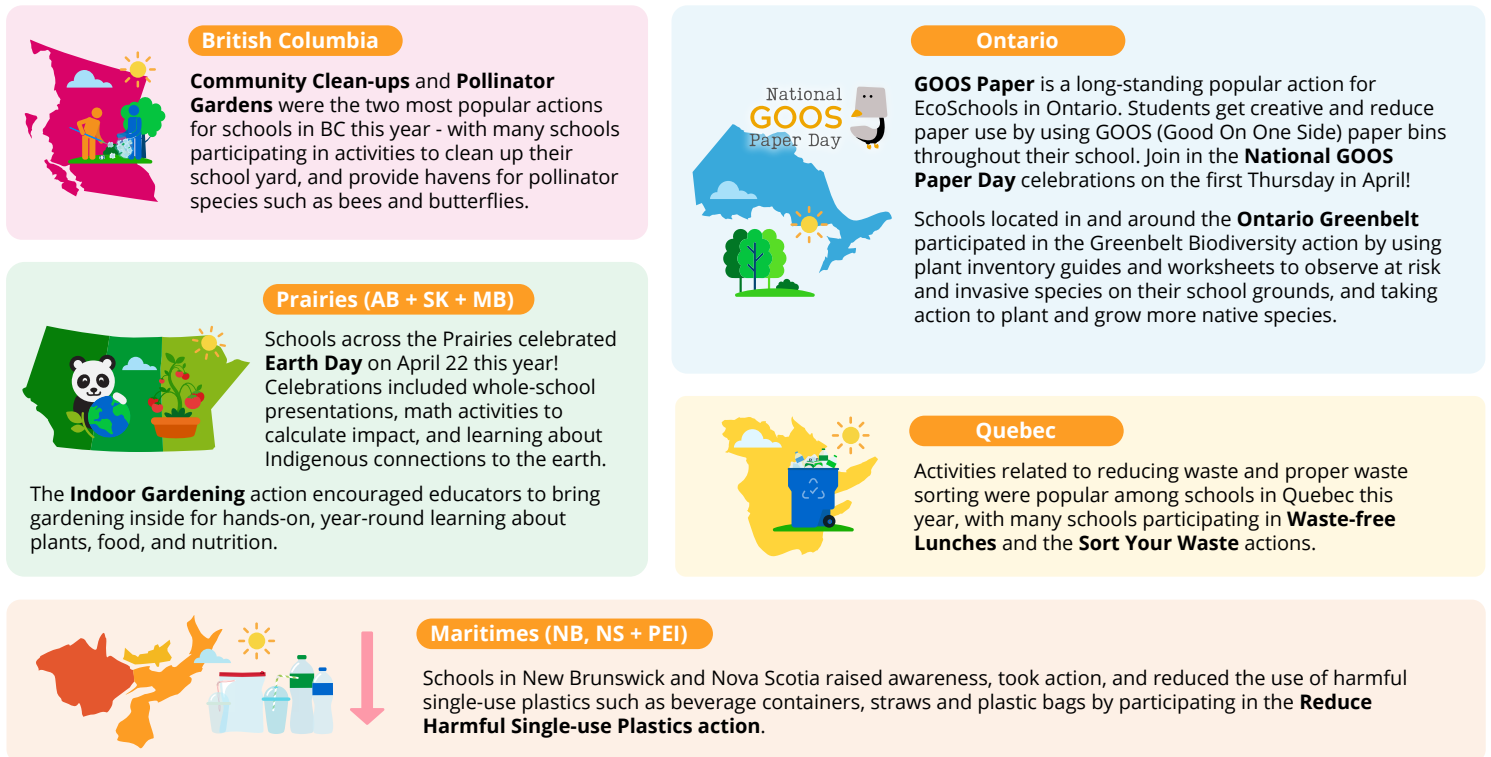

Chris Hadfield PS, Halton District School Board

Connecting to the SDGs

For more information on how the EcoSchools program connects to the UN Sustainable Development Goals, check out our SDG report for 2021 [here](#).
