

# Learn - Connect - Act

## A DISCUSSION ON ENVIRONMENTAL LEARNING

What's your favorite  
**outdoor activity?**

Did you ever change  
your plans because of  
**extreme weather**  
events like storm or  
wildfires?

Have you noticed  
**any changes**  
**in the weather**  
where you live?

**WE ONLY HAVE ONE PLANET**

**ONE HOME**

**But our world today is facing**

**major challenges like never before.**

# TRIPLE PLANETARY CRISIS

are affecting everything around us.

**Making our world better  
requires complex solutions like**

**Sustainable Development**

**Net Zero**

**Nature Positive**

**Circular Economy**

And these are guided by  
**Government,**  
**corporations, industries,**  
**Indigenous communities,**  
**scientists, technology**  
**and many other!**

But guess what?  
**You have a role  
to play too!**

**Environmental learning** is not just a subject, it's a way we live our life.

**Understanding our environment**

**Engaging field studies, nature observation and citizen science**

**Learning new skills**

**Understanding traditional indigenous knowledge of nature**

**Eco-friendly behaviors**

**Hands on learning through green schoolyards and outdoor classrooms**

**Community – based projects**

**Preparing for meaningful jobs and careers in the future**

**... And more**

# Environmental learning

has the power to transform lives  
and societies building a healthier  
and greener planet.

Canada can do better to advance  
environmental learning...

The education international study ranked Canada  
**94 out of 140 countries**  
with respect to climate change education.

In a 2022 UNESCO survey in 166 countries,  
**70% of youth**  
cannot explain climate change.

Hence, there is a  
**clear need to improve  
environmental learning**  
in Canada.

That's why we need  
a national environmental  
learning framework!

What is a  
**national environmental  
learning framework?**

Imagine learning about  
the environment like  
playing a **game of  
basketball.**

Then the national  
environmental learning  
framework is **our  
gameplan to score big**  
for our planet while  
having fun!

And there is no better  
person to create this  
game plan with than  
**YOU-TH !**

# **This is your chance!**

Respond to our survey questions to have your say in the future of environmental learning.
